--	---

This discount only applies to septic tanks with leaching fields, if you have a sealed tank please contact us for current rates.

We ask you to ensure that during the planned days, **the septic tank covers are completely dug up (soil, grass, sand, others), AND ALL SCREWS REMOVED** so that we can carry out all the planned interventions and maintain operational efficiency. Always in order to serve you quickly, professionally and with the best possible rates, we are proud to announce that Sani-Nord now has 2 points of service: Ste-Agathe-des-Monts and Saint-Jérôme. In addition, as Sani-Nord always wants to offer more to its growing clientele, we offer a chemical toilet rental service.
